

RELIABLE QUALITY

1990 yılında Mercedes otobüs yedek parçaları yan sanayi üretimi ile faaliyetlerine başlayan firmamız '95 yılında hava soğutmalı gömlek imalatının çalışmalarına başlayarak '99 yılında üretimine girmiştir.

2004 yılının başında kurmuş olduğu dökümhane tesisi ile üretim kapasitesini arttırmıştır. Üretiminin %80'lik bölümünü yurt dışına ihraç eden firmamız "Kalite kontrol edilmiyor, üretiliyor" sloganı ile çalışma faaliyetlerine devam etmektedir.

Having started its manufacturing activities by making, as by-industrial products, the spareparts for Mercedes buses in 1990, our firm entered into manufacturing air-cooled linings in '99, in result of the rolevant works started in '95.

Our manufacturing capacity have greatly increased, upon comnissioning the new foundry (casting house) built in early 2004. Our firm, who exports 80% of its products, presently continues its manufacturing activities with the slogan of "Quality is not controlled here, but designed and realized!"
